

Equine Assisted Therapy Program

- Becoming Bigger and Better
- New Equine Assisted Therapy Program
- Several New Therapeutic Groups
- Financial and Prayer Support Appreciated

Friends and Supporters of Mending Hearts Family Services,

I am excited to announce that we are the recipients of the assets from Envision Therapeutic Horsemanship, Inc. These assets will become the foundation for building a new Mending Hearts equine assisted therapy program. We are so grateful for the generosity and support of the Envision Board of Directors. In the course of this past year, I had the honor to work with the equine specialists and the Board to learn the inner workings of an equine operation.

I am excited that several of our staff members have completed Level One and Level Two Path of Life Equine Assisted Learning and Therapy Training. We are planning on providing therapeutic groups for underprivileged children, veterans, and cancer and trauma survivors at the Bridge United Methodist Church within inner city Phoenix.

Mending Hearts will need your financial support to help build this new program. All donations are welcome.

Sharon Carl
Founder and CEO of Mending Hearts
